The TeamLease Employment Outlook Report is a forward looking tool for human resource professionals, policy and decision makers, reflecting hiring sentiment across 8 cities and 16 sectors in India. This report carries a snapshot of business hiring sentiment for the first six months of FY 2018-19 on the basis of the survey and analysis carried out during the preceding 5 months [November, 2017 – March, 2018].

The survey covers 695 small, medium and large companies across these 16 sectors, studies employment trends and attrition and gleans information on hiring sentiments. The coverage is spread across 4 geographical areas [Metros, Tier-1, Tier-2/3 and Rural], 4 hierarchical levels [Entry, Junior, Mid and Senior Levels] and 7 functional areas [Sales, Marketing, Information Technology, Engineering, Office Services, Human Resources, Blue Collar].

Tracking critical drivers that influence hiring every half year, the Employment Outlook Report is the only one of its kind seeking to deliver high impact hiring decision support to its stakeholders – Business & HR heads, Senior Management and Policy-makers in industry and the government.

The report aims to

- Measure trends in hiring sentiment across the country, and estimate Job Growth, by city and sector.
- Drill across geographies, business size and hierarchy to provide additional dimensions of the statistic.
- Identify the key drivers of hiring sentiment at sector-level.

Note: The Employment Outlook and Job Growth statistics need to be read together for each sector for better understanding of the trends.

Reporting convention: how to interpret outlook statistics

The Net Employment Outlook is the difference between the number of respondents who are inclined to hire and the number of respondents who are disinclined to hire, over the next 6 months of the financial year (April through September, 2018-19). The Outlook is expressed as a percentage of the total number of respondents.

For the forthcoming half year, for which the Outlook is being reported here, 96% responded positively (hire would increase), 1% responded negatively (hiring would decrease) and 3% responded saying there would not be any change in the volume of hiring, from the previous half year. The Net Employment Outlook, therefore, would be 95%.

GLOBAL TRENDS: Asia Pacific [APAC] leads global markets with a Net Employment Outlook of 62% for the April-September, 2018-19 period. Middle-east [54%], Americas [44%], Africa [43%] and Europe [39%] trail behind APAC by significant margins. Benchmarked against global markets, the employment outlook for India is ahead of APAC (global leader) by 33% and ahead of Europe (global laggard) by 54%.

.....

INDIA: Employment Outlook improves significantly [+4%] for the April-September, 2018-19 half-year and stands at 95%. The overall positive sentiment is in alignment with the growth in GDP.

.....

The outlook improves in 8 out of the 16 sectors, covered as part of the survey, dips in 7 and stays neutral in one for the April-September, 2018-19 period compared to October-March, 2017-18.

- Positive: KPO [+4%], Ecommerce & Tech Start-ups [+3%], Financial Services [+3%],

- Media & Entertainment [+3%], Retail [+2%], BPO/ITeS [+2%], FMCG/D [+2%] and Construction & Real Estate [+2%]
 - Negative: Agriculture & Agrochemicals [-4%], Telecommunications [-4%], IT [-2%], Healthcare & Pharmaceuticals [-2%], Educational Services [-2%], Manufacturing, Engineering & Infrastructure [-2%] and Travel & Hospitality [-1%]
 - Neutral: Power & Energy
-

The outlook improves in 5 out of the total 8 cities covered as part of the survey, and falls in the other 3 cities for the April-September, 2018-19 period compared to October-March, 2017-18.

- Positive: Mumbai [+4%], Delhi [+3%], Bangalore, Hyderabad, Pune [+1% each]
 - Negative: Kolkata [-3%], Ahmedabad [-2%], Chennai [-1%]
-

All geographies** reported improved outlook for the April-September, 2018-19 period compared to October-March, 2017-18. Outlook is up by 3% each in Metro / Tier-1 and Tier-2 cities, and by 1% each in Tier-3 cities and rural areas.

.....

**Please refer Bibliography and Definitions

The outlook for Junior and Mid-levels of the hierarchy improve significantly [+4%], and the outlook marginally improves for Entry [+2%] and Senior [+1%] levels.

.....

Medium-sized businesses are bullish and report a 5% improvement in outlook. The outlook improves by a significant 4% for large businesses and by 3% for small businesses.

.....

The outlook for Blue Collar roles increases substantially [+5%], and those for Sales and Marketing [+4% each] increase significantly. IT and Engineering roles report marginal improvement [2% and 1% each] and HR and Office Services roles each report a 2% reduction in outlook.

.....

Attrition rates dropped during October-March, 2017-18 compared to FY 2017-18, for 10 of the 16 sectors. Healthcare & Pharmaceuticals (9.49%), Power & Energy (10.16%), Information Technology (10.63%) and Manufacturing, Engineering & Infrastructure (11.26%) had the lowest levels of attrition for the October-March, 2017-18 half-year.

.....

Top sectors (by city) in terms of employment outlook growth:

- Ahmedabad: Ecommerce & Tech Start-ups (5%) | KPO, Construction & Real Estate (4% each)
 - Bangalore: Media & Entertainment (5%) | Financial Services, Ecommerce & Tech Start-ups (4% each) | Retail, BPO / iTeS, KPO (3% each)
 - Chennai: FMCG/D, Power & Energy, Financial Services, Retail, Media & Entertainment, Ecommerce & Tech Start-ups (3% each)
 - Delhi: Media & Entertainment, BPO / iTeS (4% each) | KPO, Construction & Real Estate, Retail (3% each)
 - Hyderabad: FMCG/D, Ecommerce & Tech Start-ups, Media & Entertainment (4% each) | Financial Services, Retail, KPO (3% each)
 - Kolkata: Financial Services, Ecommerce & Tech Start-ups (4% each) | Retail, KPO, FMCG/D (3% each)
 - Mumbai: Financial Services (4%) | KPO, Construction & Real Estate, Ecommerce & Tech Start-ups, FMCG/D (3% each)
 - Pune: FMCG/D, Media & Entertainment (4% each) | Financial Services, Retail (3% each)

- Employment Outlook Trends

Global Employment Outlook – HY-1, 2018-19

Major global markets

	Increase	Decrease	No Change	Net Employment Outlook
 Africa	58	15	27	43
 Americas	61	17	22	44
 APAC	74	12	14	62
 Europe	53	14	33	39
 Middle-East	72	18	10	54
 INDIA	96	01	03	95

All numbers are percentages of employers who indicated either an increase, decrease or no change in hiring over April – September

- Asia-Pacific (APAC) has the most positive net employment outlook (62%) across global markets for the April-September, 2018-19 period compared to October-March, 2017-18.
- The percentage of employers reporting an increase in hiring for the current half-year (April-September, 2018-19) compared to the previous half-year (October-March, 2017-18) is the highest for APAC (74%).
- The percentage of employers reporting a decrease is the lowest for APAC (12%) as well, for the April-September, 2018-19 period compared to October-March, 2017-18.
- Employment outlook for India (95%) is substantially higher than the outlook for all the regions for the April-September, 2018-19 period.
- India has a far higher percentage of employers (96%) who report an increase in their hiring volume for this half-year, compared with the five global markets.

Global Employment Outlook – HY-1, 2018-19

Current HY in historical perspective

	Increase	Decrease	No Change	Net Employment Outlook
Oct – Mar, 2015-16	93	04	03	89
Apr – Sep, 2016-17	94	01	05	93
Oct – Mar, 2016-17	96	01	03	95
Apr – Sep, 2017-18	93	04	03	89
Oct – Mar, 2017-18	92	01	07	91
Apr – Sep, 2018-19	96	01	03	95

- There is an appreciable increase of 4% in the Net Employment Outlook for April-September, 2018-19 compared to the October-March, 2017-18 period.
- With the GDP for Q4, 2017-18 touching 7.7% there is a significant improvement in the overall hiring sentiment.
- This half-year continues on the path of a steady upward trend of the past five half-years (exception: April-September, 2017-18).
- Sentiment improves across 5 of the 8 cities surveyed, while 8 sectors report improved sentiment, 7 report dipping sentiments, and one sector is neutral, for the April-September, 2018-19 period.
- The revival of Construction & Real Estate, post-Demonetization, improves sentiment in the sector by 2%.

Quarter	GDP Growth (%)
Q4, 2017-18	7.7%
Q3, 2017-18	7.0%
Q2, 2017-18	6.5%
Q1, 2017-18	5.7%
Q4, 2016-17	6.1%
Q3, 2016-17	6.8%
Q2, 2016-17	7.6%
Q1, 2016-17	8.1%

Employment Outlook- Over the Years

The report is based on the analysis of surveys carried out with employers across India. Respondents from 695 small, medium and large businesses across 8 cities and 16 sectors have been surveyed for this edition of the report. All findings are reported as percentages of total respondents at the specific levels of analysis.

Spotlight

- Attrition Trends

Attrition Trends

Oct-Mar, 2017-18 versus FY 2017-18

- The previous half-year (October-March, 2017-18) saw a lower level of attrition, than during FY 2017-18, for 10 of the 16 sectors. BPO / ITeS, Construction & Real Estate, Healthcare & Pharmaceuticals, IT, KPO, Manufacturing, Engineering and Infrastructure, Media & Entertainment, Power & Energy, Telecommunications and Travel & Hospitality saw lower levels of attrition.
- In the remaining 6 sectors attrition rates rose relatively sharply during the previous half-year (October-March, 2017-18). Agriculture & Agrochemicals, Ecommerce & Tech Start-ups, Educational Services, Financial Services and Retail witnessed a relatively sharp rise in attrition rates
- BPO / ITeS (19.11%), Retail (18.2%), Ecommerce & Tech Start-ups (17.02%) and Travel & Hospitality (16.29%) have the highest attrition rates for the previous half-year (October-March, 2017-18).
- Healthcare & Pharmaceuticals (9.49%), Power & Energy (10.16%), Information Technology (10.63%) and Manufacturing, Engineering & Infrastructure (11.26%) had the lowest levels of attrition for the previous half-year (October-March, 2017-18).
- Healthcare & Pharmaceuticals (9.92%), Financial Services (10.17%), Agriculture & Agrochemicals (10.27%), Power & Energy (10.31%) and Educational Services (10.66%) had the lowest attrition rates for FY 2017-18.

The report is based on the analysis of surveys carried out with employers across India. Respondents from 695 small, medium and large businesses across 8 cities and 16 sectors have been surveyed for this edition of the report. All findings are reported as percentages of total respondents at the specific levels of analysis.

TeamLease survey, Nov, 2017– Mar, 2018

Attrition Trends Past six HYs [fiscal]

- Historical attrition trends vary across sectors – rising for 6 sectors [Educational Services, Agriculture & Agrochemicals, Financial Services, Media & Entertainment, Construction & Real Estate and Power & Energy], falling for 5 [BPO / ITeS, Ecommerce & Tech Start-ups, Information Technology, Healthcare & Pharmaceuticals and Knowledge Process Outsourcing] and mixed trends for the remaining 5 [FMCG & D, Manufacturing, Engineering & Infrastructure Retail, Telecommunications and Travel & Hospitality].
- The steepest rising trends in attrition rates were seen for Educational Services, Agriculture & Agrochemicals, Financial Services and Media & Entertainment.
- Significant downward trends were witnessed in case of BPO / ITeS, Ecommerce & Tech Start-ups and Information Technology.
- In addition to the above three sectors attrition rates seem to be on a downward trajectory for Healthcare & Pharmaceuticals and Knowledge Process Outsourcing as well.
- Healthcare and Pharmaceuticals, Knowledge Process Outsourcing and Fast Moving Consumer Goods / Durables exhibited the most stable attrition trends.

The report is based on the analysis of surveys carried out with employers across India. Respondents from 695 small, medium and large businesses across 8 cities and 16 sectors have been surveyed for this edition of the report. All findings are reported as percentages of total respondents at the specific levels of analysis.

Travel & Hospitality	T&H
Power & Energy	P&E

Data Source: TeamLease Jobs and Salaries Analysis, 2018

Research Methodology

Sample Design

Random stratified sampling technique** was used to identify respondents for the survey. Data sources used to collect contact data were:

- Kompass directory for small, medium and large sized companies in the private sector. To ensure continuity with the baseline measurement, the core random sample was drawn from this database.
- NASSCOM / iSPIRT database for IT Services and Ecommerce / Tech start-up companies
- Companies registered with the Bombay Stock Exchange (BSE).

Respondent Selection

Target respondents for the study were Business & HR Heads as well as Senior Managers with hiring mandates. The databases offered a contact name for each company listed. Interviewers called into each of these companies and obtained the names of the appropriate individuals who were responsible for hiring decisions.

Data Collection

The survey instrument was then administered to the target respondents using the TeamLease mobile survey application. Please refer the following section named 'Sample Distribution' for details on city and business size-wise breakup of the sample.

Secondary Data Sources:

- Major sources of Indian and international research about informal workforce employment trends in India

***The market is 'stratified' into various segments and respondents are picked at random from each of the segments*

Geographies:

- **Metros:** A metropolitan city is one having a population of over four million. Delhi, Mumbai, Kolkata, Chennai, Hyderabad, Bangalore, Ahmedabad, Pune, Surat and Nashik are metros.
- **Tier-1 cities:** Cities that had a population of 100,000 as of Census 2001. Delhi, Mumbai, Kolkata, Chennai, Hyderabad, Bangalore, Ahmedabad, Pune are tier-1 cities.
- **Tier-2 cities:** are the next level down from Tier I, and are basically smaller cities, statistically 1 million in population, and are usually regional hubs such as state capitals or industrialized centres. Some examples include Pune, Cochin, Mangalore, and Dehra Dun.
- **Tier-3 cities:** consist of cities with a population of less than a million.
- **Rural areas:** are villages and have very low population densities.

Hierarchies:

- **Entry level:** Candidates / Employees with less than 1 year work experience.
- **Junior level:** Employees with greater than 1 year and less than 3 years work experience.
- **Mid level:** Employees with greater than 3 years work experience and part of the middle management of a company.
- **Senior level:** Employees with greater than 3 years work experience and part of the senior management of a company.

Blue Collar:

- A functional area that comprises manual / hands on labour.

Business Size:

- **Small businesses:** those that employ less than 500 people
- **Medium-sized:** those that employ 500 to 5,000 employees
- **Large businesses:** those that employ greater than 5,000 employees

Job Growth:

- is the percentage growth of jobs forecast for the current half-year (April-September, 2018-19) over the number of jobs created during the previous half-year (October-March, 2017-18).
